

Mugish Beldar

Backend Developer

Profile

An experienced software developer proficient in JavaScript, React.js, Node.js, Express.js, Kafka, MySQL, MongoDB, CockroachDB, and BigCommerce. I'm dedicated to delivering high-quality solutions, with a year of hands-on experience, and a strong track record in web development and RESTful APIs.

Employment History

Backend Developer at Rapidops Inc, Ahmedabad

February 2023 - Present

- Develop a web application with a clean coding architecture, including the creation of databases, tables, and business logic.
- Created a robust RESTful API using Node.js and Express.js, seamlessly integrating it with a MYSQL database for efficient data management.
- Proficient in utilizing the BigCommerce Api with Node.js for eCommerce development.
- Developed and maintained high-performing eCommerce solution.
- Achieved efficient data synchronization and management.
- Collaborated cross-functionally to enhance the user experience.
- Implemented custom features tailored to business needs.

Internship

Web Developer at Maxgen Technologies, Ahmedabad

June 2022 - Aug 2022

- During my 2-month internship in web development, I honed my skills in responsive web design.
- I applied these skills to create a comprehensive GYM website, incorporating a sign-up page, fee details, trainer profiles, and a user-friendly feedback form.
